

FAMILY

RAP INTRO

Haha ... Yo are we rolling?
Here's a little something for the families out there
Man I love the ones who raised me
The next generation, the future of the nation
Raised in a family, families yo, like my family

VERSE

Driving round in the car all day, going out to the park to play
What a great time we had together, my family
Table's set and it's time to pray, thanking God for the wonderful day
Oh how I love, my family

CHORUS (X2)

I've got my father, I've got my mother, I've got my brother
I've got my sister, grandfather, grandmother yeah, it's my family
La la la la, la la la, my family, la la la la, la la la

RAP

Oh I love to rap about, my mummy and daddy
Raise me the best they can, builders of my family
Looking after each other, we have intimacy
So with my brother and my sister, we're carrying on a legacy
La la la la, la la la, my family, la la la la, la la la
